

PickEatz

A product pitch by
Nehemiah Speaks

The Problem

What problem does your product website solve or address?

- Trouble deciding what to eat for dinner?
- About 23 million people have a food allergy in the U.S.
- Never have to deal with a food allergy, picky eating, or indecision again

Your Solution

What is your product idea, and how does your website help solve the problem?

- PickEatz takes into account many factors and helps you decide
- Allergies, picky eaters, indecision, ingredient shopping, recipes, etc.
- It's like a dating profile for food!
- The website will describe how the software works and demonstrate its use cases

Website Type

What type of website are you building?

- This will be a brochure website
 - Allows us to display basic information about the software
 - Teaches user everything they would need to know about how to use it/if it is for them

Software Development Process

What software development process will you use?

- We will be using the Scrum development process
 - We are a startup company
 - Allows us to release software and get feedback quickly
 - Continuous updates / adapting to customer needs
 - Find or be notified of bugs quickly

Target Audience

Name	Gender	Age	Location	Occupation	Income	Web Use	Reasons for visiting site
Gerard	Male	43, Single father, 4 kids varying ages	Midwest	Corporate office 9-5	90k yearly	Moderate (mostly for facebook)	To figure out if PickEatz will help with dinner
Name	Gender	Age	Location	Occupation	Income	Web Use	Reasons for visiting site

- Show layout of header, navigation blocks, footer

Pitch Summary

Wrap up your pitch.

- People hate indecision / barriers
- Makes meals easier for the average person, no conflict
- Money isn't easy to come by, cooking / buying out a lot isn't cheap

Feedback Questions

Include any specific areas where you'd like peer or instructor feedback.

- Is the solution clear?
- Are the features too much/little?
- Is the target audience well-defined?
